

# University of Wyoming LIBRARIES

## Accessing Course Reserves

- 1) Select **Reserves** link on the University of Wyoming Libraries' homepage.
- 2) Now you have the option to select the course reserve by the instructor's name, department or course title. Selecting a course reserve using the instructor's name is usually the fastest method.
- 3) If there are several courses taught by an instructor, select the appropriate course.
- 4) If the course reserve is in electronic format, there will be links for these items under the heading **E-Items**. If the course reserve is in print, there will be a call number and it will say the reserve can be accessed at the library's **Circulation Desk**.
- 5) Course reserves that are in electronic format may require your university username and password before accessing.
